Dear Friend In Pain,

Life is short...very short, so pay close attention to the next few pages. If you're suffering from fibromyalgia, or chronic fatigue syndrome, make sure you read this report.

If you're like me, you just want straight ANSWERS and SOLUTIONS so you can get your life back in order. Reading this revolutionary report, may be one of the most important things you've ever done... or ever will do.

And I can tell you this. It's not about luck. No, it's about a secret. A secret that I've recently discovered and is nothing more than knowledge...

Knowledge That Will Change Your Life From Suffering To A Pain-Free Existence!

If you're suffering with fibromyalgia or chronic fatigue syndrome...

You Will Discover How To Change Your Life !

DID You Know That Most Doctors, Do Not Have A Good, Thorough Understanding Of Fibromyalgia!

Most medical doctors spend their day treating infections, cuts, fractures, prescribing medications, or performing surgery. So why is that important to you?

Because. They simply do not have the experience or knowledge in **successfully treating fibromyalgia** – it’s just not a big part of their training. They are taught to treat symptoms. They always TREAT your symptoms, and not the cause.

Once a doctor has diagnosed you with a condition called fibromyalgia, you were probably given a regimen of some prescriptions and maybe some exercises plus the number of a support group to call.

And after that you were probably referred to either a physical therapist or a rheumatologist, depending on your symptoms.

Well let me ask you this:

What If Your Fibromyalgia Pain & Fatigue Could Be Helped Right Now?

If what you want is HELP, then make sure you read this report very carefully. A tremendous amount of work went into it, and I guarantee you won’t get this information anywhere else. It’s not professionally written, but it was written for you, by me.

It may be the key between you continuing to suffer, or living a normal life again, so please forgive me if there are any grammatical errors.

Here’s a question for you. Have you ever heard...

“My doctor said that I would just have to live with the pain. I refused to accept this until the rheumatologist told me the same thing.”

This is one of the most common complaints I have heard from my patients I’ve interviewed with the fibromyalgia symptoms.

Maybe you have lived for months, or years with your pain. That’s very possible. In fact, you may have reached a point where you have accepted everyone’s opinions, including those doctors that you will just have to “live with your pain.”

Well, I totally disagree. If you are like most fibromyalgia sufferers, you have been to numerous “specialists,” and during that time, you’ve most likely wasted your precious time and money ... to no avail!

To be honest, many fibromyalgia patients experience musculoskeletal pain and aching, disturbed sleeping patterns, fatigue, depression, numbness and tingling in the arms and/or legs, migraine headaches, TMJ problems, and bowel and bladder disturbances. That my friend is a lot of symptoms.

The trouble is, millions of people have been diagnosed with this “mysterious” condition...and the numbers seem to be on the rise. It seems these days, everybody has a variety of aches and pains, but medical tests show “*nothing is wrong*”. And when this happens, a lot of times someone is diagnosed with Fibromyalgia! Why? Because they don’t have any other diagnosis they can pin on you.

Most of the patients that show up at my office say their symptoms began gradually and eventually “snowballed” into more and more symptoms. They felt as though they were stuck in this *vicious cycle* of pain, fatigue, emotional stress and therefore they took and were prescribed ... more drugs.

Sound familiar?

Now, first things first. Before we go any further, I want you to do me a favor - promise you will read this entire report, word for word.

I want you to feel the incredible connection and inner fulfillment I do, when I give you this “secret” and unlock the fibromyalgia “chains” that have stolen so much of your life.

I want you to realize you are not alone...and you will NEVER, EVER be alone again.

If You Put This Report Aside, It Could Cost You A Healthy, Happy Life...

If you’ve been desperately searching for answers to your health problem and haven’t been able to find them, get ready.

I'm going to give you some HONEST answers as to why you're suffering and HOW you can get better.

If you're sick and tired of listening to so called "expert" doctors and specialists that only take your money and leave you with NO RESULTS, or results that never last, then reading this *entire* report, RIGHT NOW, and not putting it on a pile next to your unpaid bills, will prove to be the biggest, most important decision you've ever made.

If you're reading this report because you suffer with constant or intermittent fibromyalgia or chronic fatigue symptoms, you're on the right path.

If you're exhausted and in pain all day, this is the report for you.

If you worry about playing with your children or doing the things you love to do because you always feel "lousy," you have to read this report.

ALL OF IT.

And you know what. I honestly don't know where you can get this vital information. Whatever you do, ... **Do NOT put off reading this report or you WILL miss out on the results you've been searching for.** Trust me, if you don't read this report now, you will kick yourself later as you will realize this simple report was the answer you'd been looking for.

After reading the next few pages, you will feel a giant weight being lifted off your chest as you'll have the possible answer to that huge, debilitating monster that has been crippling your enthusiasm, ruined your relationships and possibly even "crushed your very will to live".

I know this to be a fact. "Fibromyalgia" robs you of your youth. It sucks the fun right out of your life and makes you old before your time. Age is like taxes, ... it's a given, but there's absolutely no reason for you to suffer from these symptoms...needlessly.

It does NOT have to be this way... it does NOT have to be a struggle anymore. There is an answer and a good one.

IMAGINE

...how great you would feel without your constant joint pain, stiffness and chronic fatigue.

...how easy your life would be if you could just do all the things you loved to do ... WITHOUT the pain and fatigue ...

...how easy your life would be if you could just do all the things you wanted to do...without feeling exhausted and miserable.

...not having to take handfuls of expensive pain pills that don't work and have deadly side effects...

...waking up tomorrow morning, bright eyed and bushy tailed, feeling completely refreshed with a surge of energy, ready to take on the new day - JUST LIKE YOU USED TO...

Well, stop imagining...

**It's Here!!!
All You Have To Do Is CALL!**

Hi, my name is Dr. Naota Hashimoto and I am about to reveal to you what I believe is the ULTIMATE SOLUTION to your fibromyalgia symptoms.

Why would I reveal all this to you? Why am I even sending you this report. Why would I care?

BECAUSE I know just how crippling fibromyalgia can be. I know how fibromyalgia can destroy your family. Destroy your career. Destroy your life. And I know how fibromyalgia can put a strangle hold on your life and squeeze your hopes and dreams - right out of you.

I help fibromyalgia patients, just like you...EVERY DAY. You see, a large part of my practice is devoted just to fibromyalgia patients. Devoted to cases other doctors have given up on. Devoted to cases other doctors have simply turned their backs on and told the patients to just learn to live with it, the best they could.

Patients like you are so important to me that I spend countless hours every month ... treating fibromyalgia and scouring the medical journals and research papers to find the very best and the very latest advances in fibromyalgia treatment.

What I've just done is the equivalent of stumbling across the fountain of youth ... And I'm gonna share it with you. All of it.

Here's what this report is all about: Before I discovered this combination of secrets, I was your average doctor and I, like most of my colleagues, knew very little about fibromyalgia and how to treat it.

Years ago I seemed to be able to help some of the fibromyalgia sufferers, while many of them only got minimal, if any results. I knew something was wrong, but I didn't have a clue as to how to successfully treat it, almost in every case.

Most doctors I know have just given up on fibromyalgia completely, throwing their hands in the air, telling their patients it's all in their heads or to just take more medication.

Well, it seemed like I just kept getting more and more patients with fibromyalgia. And the more patients I got with fibromyalgia, the more they kept asking me if there was ANYTHING at all that I could do to help them.

I soon found out through extensive research that there are about...

30 Million Fibromyalgia Sufferers In The U.S.!

Yup, it's true! I personally was shocked at that number. After weeks of research on the Internet I began searching for a solution. Any clue. I knew there had to be something out there that was being overlooked...that could help fibromyalgia

Well, after a few years of searching, all I came up with were worthless drugs, anti-depressants, psychiatrists, etc. I even found someone selling some kind of "mineral enriched sea water."

And I wasn't opposed to that...if it helped. But it didn't. Well by now, I found out what you already know...

That They Were Worthless For Helping Fibromyalgia!

Let me ask you a question before we go any further.

Are you overwhelmed and frustrated with your fibromyalgia and all the so called "answers" you get from your doctors, the newspapers and other publications?

Well, I was too. But I didn't know where or who to turn to.

The bottom line was this... I could not find anyone who was REALLY helping fibromyalgia sufferers, no one.

Sure they did a lot of elaborate, expensive tests (Very expensive!). They used a lot of fancy words. But when everything was said and done, what could they do?

NOTHING! I was appalled.

Then they even had the nerve to send you an outrageous bill!

Fortunately ...

I'm The Kinda Guy Who Will Talk To Anyone Who'll Listen!

That's how I found out about an amazing system created by a *former* fibromyalgia sufferer.

The secret to his program's success is that he had a multi-pronged attack and to my knowledge, no other doctors have even heard about, much less are using this program.

What I do is I attack your fibromyalgia from every possible angle... giving you the best possible chance ... to feel like you did BEFORE.

Knowing this “insider” secret offers you the BEST possible solution to your fibromyalgia and **the power to move the world.**

Almost overnight, you can start feeling the relief of your aches, pains and chronic fatigue. Your life can go from sheer hell to breathtaking enjoyment ... all in a matter of weeks.

The trick, of course... is finding the right secrets. And the right guide, who will take you by the hand, and answer all your questions...plus show you exactly how you can there, as fast as humanly possible.

The right guide, who understands exactly what you are going through and has helped so many patients, just like you...already.

There’s a lot of nonsense out there.

Too many “experts” who really don’t understand what you are going through. Doctors ready to put you on some new trial, toxic drug. Snake oil salesmen ready to profit from your fear.

That’s why I’ve put together the “ultimate fibromyalgia program” for anyone who is suffering from fibromyalgia symptoms.

It’s the exact program that so many *former* fibromyalgia sufferers tell me they wish they had known about 10 years ago...

So much unnecessary suffering... so much wasted time.

This program is the secret...most fibromyalgia sufferers never discover or learn about, until it’s too late.

So What Is The Secret?

Here’s the SECRET and how it works:

1. **The Nervous System**: Much of the latest research points to brain stem injury and malfunction as a major cause ... if not the only cause of fibromyalgia. Our “Complete Fibromyalgia Qualification Evaluation” includes a nerve system evaluation, so we’ve covered that

area. You know that your nervous system controls all of your other systems in the body. Every medical student and doctor knows this. So we want to start with the most important system in the body.

After your evaluation, we then ‘painlessly’ test you for any nerve system imbalance or interference. I’m going to show you how you can get this specialized Fibromyalgia Qualification Evaluation...FREE in a minute. Remember, this is a multi-pronged approach that has to be followed to give you the results you WANT! Now let’s go ahead and look at the second part.

2. The Muscles: You know that your muscles ache and they hurt, so you know that they play a big role in this process. Your muscles can get knotted up, become tight and then develop fibrous tissue in the muscles that drain you of energy and usually cause you to experience chronic pain. At our office we use a special instrument, a recently developed and featured on ABC and FOX news, called a Graston tool to break up this scar tissue in your muscles. This process allows your muscles to relax and start functioning normally again, without putting undue stress on your entire body. You’ll like this part of treatment the most. It feels good and is very, very relaxing. The side effects are ... It Works! And you get RESULTS, almost immediately.

“Can’t I just do exercises ... to fix up my muscles?”

You may have been told to go and strengthen your muscles. However, your muscles are likely malfunctioning due to improper nerve supply (see #1) and skeletal imbalance.

Yes, exercise is beneficial, but many suffers are in too much pain to exercise, so getting YOU OUT OF PAIN first is the key!

Ask yourself another question...since your muscles aren’t functioning normally, would you want to add to their workload by trying to strengthen them with a **rigid exercise** routine in its present state?

Would it make sense to take a car that was out of balance and keep driving it?

Would you take any machine or household appliance that was broken and out of balance and try and make it work...by using it more?

Haven't YOU Had Enough Wear and Tear On Your Body Already?

There's a time and a place for exercise. It's when the body's in better BALANCE. Further damage may occur from hammering muscles through exercise...when they don't have proper balance and nerve supply.

Why put yourself through that? Think about this. If a plant were dying from a lack of water, all the sunshine, air or fertilizer in the world would not make it well again. It needs the stuff that's missing.

3. **Acupuncture:** According to a study by the American College of Rheumatology San Francisco November 12, 2001. Acupuncture showed a noted improvement in pain, depression and mental status after only 4 treatments. This is an ancient healing art, and can do wonders for many conditions we have today. Acupuncture will also increase your circulation, which will lead to a increased healing.
4. **Nutrition:** Many fibromyalgia suffers may have all the symptoms of fibromyalgia, but may be suffering from other conditions with very similar symptoms. Utilizing clinical nutrition protocols by a skilled doctor, one can CORRECT THESE problems which create these HORRIBLE SYMPTOMS. Some of you may have tried malic acid, magnesium, B vitamins or other supplements for your pain and may have not received the full therapeutic benefits. We will first remove toxicities in your body first, before we add the essential nutrients.
5. **Pain Therapy:** We even work with a pain therapist nearby for added benefits.

You see, you can lose a leg...you can lose an arm...but there is NOTHING like an amputated spirit. That's what fibromyalgia does to you.

And the worst part is that you are not alone. Fibromyalgia is amputating the spirit of so many people that I've asked you to share this report with anyone you know that may be suffering from fibromyalgia like symptoms.

Fibromyalgia is a crippling disease **ruining** the lives of over 30 million people.

9 out of 10 are women.

What I'm here to do is to share this wish you. Share this information that I think will change your life forever.

I know it may sound too good to be true, but what if it isn't? What if this is the answer you've been looking for? I want to give you the power to move the world...before it's too late.

This simple, easy-to-use system can bring you from the peak of misery...back to a life of breathtaking enjoyment! As I mentioned before, there's a lot of nonsense out there. A lot of "experts" praying on your misery...filling you with false hope. Or even worse, telling you there is NO HOPE.

That's why I've written this report. This is REAL help from someone who understands and wants to help.

I want you to take you by the hand and answer ALL your questions...giving you the best possible way to get better.

I don't care if you've been to 100's of other doctors. Or if you've tried everything under the sun and been disappointed countless times.

None of that matters.

The ONLY thing that matters... is your desire to get well. To start feeling better right away. To finally find the answers you've been looking for that can change your life in the blink of an eye.

This is a simple program, but you can't find it anywhere else and you can't figure it out by yourself. You will NOT find this in a fibromyalgia chat room. I honestly got lucky when I put this program together and found the "missing link" that gets such miraculous results for so. There is absolutely no sane reason why you should go on suffering - when the answer lies right at your finger tips.

Let me be your guide. I know what you're going through. When I started asking other doctors about fibromyalgia they told me, "Aaaah, they're all just hypochondriacs... there's nothing wrong with them... what they need is a good shrink!"

Well, I know better. **And I promise, I won't let you down.**

But I will say this: There are only 3 good reasons why you should NOT explore this FREE OFFER, with a call:

1: You're looking for some "magic potion" or instant "cure."

2: You've given up on trying to get better, no matter what anyone says. That includes someone who is getting excellent results with patients, just like you.

3: You're NOT willing to use anything other than DRUGS and SURGERY.

Please take the time to read through the numerous testimonials I have **included** with this report. You will see that many of my patients went to many other doctors and tried many different treatments before they came to me and were finally able to get relief.

Although this is a somewhat short report, it's taken me months to research, document and write it and now that I'm getting overwhelmed with responses, I'm not sure how many more new patients I can accept.

I have decided that I will strictly limit the number of fibromyalgia sufferers on this program ... so I can give each and every one the ***individual attention*** they need ... to get the best possible results.

There is also a qualification process like I mentioned before to make sure you are a viable candidate for the program and that you have the best chance for success. If I can't help you, then I'm going to be upfront with you

and tell you that. But if I can help you, then I expect you to follow through with this program, so you can achieve the RESULTS we're both after.

Agreed?

So please... if you at all interested in qualifying for this program, and want to see if this is the solution you've been dreaming about... call my office now. As I'll explain in a minute, you won't risk a single penny. It can't get any better than that.

Do You Qualify For This Amazing, New Program...Absolutely Free?

My Unconditional Guarantee...

**“Your Satisfaction Is
Unconditionally Guaranteed...”**

I know I don't have a magic wand and there are no 100% cures out there, so I'm going to go ... one step further. As a doctor, I cannot guarantee results, but I can guarantee your satisfaction.

If you qualify for care and are accepted at my office as a patient, ... if after the first 14 days of treatment you are not happy for any reason and I mean ANY REASON, you get ALL your money back...no questions asked!

I dare you to find any other doctor that is willing to match this offer.

No one else dares to match this offer because they know it would put them out of business! And I'm not about business, I'm about getting YOU results and making you happy. I want to treat you, like I want you to treat me. It's the Golden Rule and I live by it.

You see, I believe in paying for results ... not just for someone's time. I know how frustrated I have been when I received horrible advice from attorneys and accountants and still had to pay the bill.

That has happened to me more than once and frankly...

THAT STINKS!!!

So why would I accept you as a patient if I honestly did not feel I could help you? Why would I waste my time and yours only to have to give you your money back?

So with that said, you know that I am not going to accept you, unless you are qualified and I think I can help you.

Now, I can't tell you if you will qualify for this unique program, but if you do - you have absolutely nothing to lose and everything to gain.

You can't go wrong. Isn't it worth a hour or two of your time to find out if we can help?

Now Give Me A Minute To Speak "Off The Record..."

You've spent the last half-an-hour or so reading this report. 16 pages to this point. You **MUST** be seriously interested in what we've said and what the *Ultimate Fibromyalgia Program* can do for you.

Finally finding a completely Risk-Free way for you to possibly erase many, if not all of your fibromyalgia/chronic fatigue symptoms that you've spent so many sleepless, painful nights dreaming about.

Nevertheless, 9 out of 10 of people who have made it this far, all the way through this report, will "chicken out." Back down when the answer to your prayers may be just one, painless phone call away. That amazes me.

Why do so many people give up without at least giving it a shot? I think you've been taken advantage of...played for a sucker more than once. Prayed on by unscrupulous snake oil salesmen who promise you the world and deliver junk. By this time you're more than a little "gun shy." I understand.

That's why I put my money where my mouth is and offer you the **unparalleled, unconditional, satisfaction guarantee.**

You will NOT be taken for a fool. You will be given ALL the tools you need to get relief from fibromyalgia. - Now the only question left is... are you gonna chicken out?

Remember When...

If you can think back, right now, to a time before you suffered with fibromyalgia and imagine EXACTLY how that felt.

Imagine how wonderful you felt without aches and pains...without undue stress on your relationship and family... a life full of energy.

Feel how you felt... see what you saw... smell what you smelt... it feels wonderful doesn't it? Kinda like that feeling that engulfed your entire body when you met your first love.

Imagine how that would feel again... to have that energy and incredible connection again...with your spouse, your children...your family - and if you could look back on today, sitting here reading this report, as being the beginning of that - the beginning of the happy, fulfilled life you've always wanted.

P.P.P.S. This Evaluation will take about 20 minutes...maybe 30 minutes. There will be **8,760** hours in the next year. You will spend those hours in many ways. How many of those **8,760** hours will be spent

- ❑ **Worrying?**
- ❑ **Sleeping?**
- ❑ **Doing “nothing?”**
- ❑ **Watching TV?**

I promise you will not “miss” this one measly half hour from your hectic schedule. After your evaluation your life will only be one half hour shorter, but thousands and thousands of hours “better.”

P.P.P.P.S. What's the worst thing that can happen to you if you come in and get your FREE evaluation? *Infection? Paralysis? Death?* - No, these are all side effects to SURGERY. How about **Stomach ulcers? Gastrointestinal bleeding? Death from Kidney failure? Death from liver failure?** - No, these are side effects to COMMON pain pills!

None of those things will happen to you if you come in for your FREE evaluation. And it's only FREE so you'll do it.

Sure I could charge \$thousands of dollars\$ for an evaluation, but that's not what I'm about.

I'm interested in helping people, and that's why it's FREE. For some strange reason, some people don't get excited about their health care, unless it's FREE.

At worst you will find out I can't help you and you will leave in the same condition you came in.

At best, we will find that I CAN help you and you'll get a natural, drug-free, possible solution to your fibromyalgia.

“Former Fibromyalgia Sufferer of 12 years Finally Discovers The Secret to Relief!”

Dear friend and fellow sufferer,

Pain is something that most of us don't like, but pain is something most people don't know what to do about it, especially with fibromyalgia pain.

Hi. My name is Gwen Brown. Most people don't believe me when I tell them that I finally have relief. My belief is now that I don't have to take drugs or have surgery to get rid of my pain, even if you have fibromyalgia pain.

Now I'm not bragging, but these little miracles are what 'trips my trigger' and helps me do what I do, on a daily basis. I love to help people, but nothing gives me a bigger thrill than helping someone regain their health from fibromyalgia, because I've been a fibromyalgia sufferer too.

Here's my story. "I had fibromyalgia for 12 years. My body ached constantly and I was in pain daily. I had burning and stinging sensations that went everywhere in my body. The symptoms came on almost overnight, or at least that's the way I remember it anyway. I was always exhausted. I wanted to play with my grandkids, but the pain was so intense at times, I hardly knew what to do. My medical doctor told me there were two criteria for fibromyalgia. 1) A history of widespread pain involving all four quadrants of the body (right side, left side, above waist, below waist) for a period of at least 3 months. I had pain in all four places for years, so I was in this one, 100%. The second criteria that he told me points to fibromyalgia is, upon physical examination, I had the presence of pain in at least 11 of 18 tender points when touched with very light force.

I can tell you, I was dealing with a lot of symptoms.

One of the biggies was insomnia. I couldn't sleep to save my soul. And I can tell you, when you can't sleep, you can get really cranky, and that means, if momma isn't happy, no one in the household is.

Most people like you and I, have taken different medications to try to help us with the pain but they just don't seem to work long term. In fact they tend to make you worse, I am sure you know what I mean.

Before I met Dr. Hashimoto, I was one sick puppy and I was getting sicker by the day. I didn't know where to turn, until my daughter told me about a doctor in Seattle that had a new kind of treatment that was getting remarkable results.

Dr. Hashimoto's treatments are different than any other doctors I've been to for my fibromyalgia. His treatments are totally naturally therapies and they get results. The entire office is very friendly and concerned about their patients and during my first few times in his office, I needed people that cared about me and my condition, because I had been places where I was treated like a number, and I didn't like that. Besides helping me with the pains, I feel that taking his nutritional advice has also helped, as I now have a lot more energy and lost 20 lbs.

When you first go to his office you'll sit down with him and discuss your fibromyalgia problems and find out if you qualify for his specialized type of fibromyalgia care plan. This process won't take long, and the really nice part that I liked? I didn't have to wait 3 hours to see the doctor. Nope. As soon as I called, they had me scheduled in for my appointment within 24 hours and I liked that.

You may or may not qualify for his specialized care plan, but I can tell you this. If you do, you'll be very, very happy with the results.

And if he can't help, he'll tell you that right up front and it won't cost you a penny.

I would have driven 200 hundred miles to get relief, because I was hurting so bad and couldn't find anyone that could help.

Once you've found him, it'll be worth it because you're finally going to get some relief, and really, isn't that what's it all about?

I've always found out that if you tell people the truth, they know it's the truth and they respond and that's why I'm telling you this story. You can get help, but you won't find this type of help, just anywhere or from just any doctor.

Dr. Hashimoto is a saint in my eyes. I've found a place that made me feel whole again and made me feel like a real human being.

Sincerely,

Gwen Brown

P.S. Don't wait until your fibromyalgia and chronic fatigue gets worst. Call him now. He has a very friendly staff and you'll like his office. He doesn't bite and might just give you the relief he gave me, but you have to call him now.
