Why Most People Suffer Unnecessarily with Neck Pain Throughout Their Whole Lives... And What You Can Do To Make Sure That Never Ever Happens to You!

Dear Friend (and current neck pain-sufferer),

You've probably lived for years with neck pain.

In fact, I bet you've become so used to it...it is so pervasive in your life ...that you've just accepted it as "normal." Do you know what I think?

You are flat out wrong!

I hear such nonsense every day. Patients tell me almost daily that they can't believe how they suffered for years. How they had to forgo so many life experiences... just because they thought nothing could be done about their neck pain. That's pure...

Tom Foolery!

My name is Dr. Naota Hashimoto. My office is located just minutes away from your home, on Hwy 111, near La Quinta High School in La Quinta.

In fact, we're neighbors.

And what I'm about to reveal to you, and what you'll learn is guaranteed to...

Absolutely, Positively Outrage You!

Listen: If you've been living with ANY type of pain, such as:

- Neck pain
- Headaches or migraines
- Lower back pain
- Shoulder pain
- Arthritis
- A "bad" knee(s)
- Or ANY OTHER BODY PAIN...

THEN I'VE GOT NEWS FOR YOU:

**YOU NEVER EVEN HAD TO "SUFFER" MORE THAN ONE DAY...
IF ONLY YOU HAD KNOWN ABOUT THESE SECRETS SOONER!**

Well, let me qualify that. Yes, it's true that certain people just need "emergency" care. You know, for things like broken bones, big gashes and cuts, ETC. The usual "emergency room" stuff.

But it's also equally true, that most "neck pain" you suffer from can and could be reduced or eliminated quickly and easily -- just using a few little-known, misunderstood, but powerfully effective "techniques." (I'll describe them later.)

Here's my point: You have been suffering with neck pain for way too long.

I'm just grateful you called me when you did, to get this free health report. Otherwise, you would have suffered, maybe needlessly, for years and years and years.

Scary.

You never hear about natural and painless approaches to neck pain on television because they don't have the funding to advertise like drug companies do. There is a time and place for them, but if you keep suffering from pain you just have to ask yourself...is my body having pain because I don't have enough of this drug in my body? If you want to see if there is another solution just...

If you've read this far, I know you agree. You've have neck pain, and by now you know that just popping a so-called "magic pill" just ain't cutting it.

Even if the "magic pill" you've been taking is just an aspirin. It's STILL a drug. And if I know you as well as I think I do, you're taking aspirin with great frequency -- without any real and lasting results.

My point is:

DRUGS DON'T MAGICALLY SOLVE YOUR PROBLEMS!

Just like alcohol doesn't make you permanently "happy", either. Sure, it feels good for an hour or two, but once the effect wears off, you're back to your usual self.

Drugs do the same thing to your pain! They are a quick and easy temporary "quick fix". But when the party's over, it's

BACK TO REALITY AGAIN!

And back to feeling more pain.

You've treated the *symptom*, NOT the root cause.

Can you see that?

And the worst part is, your body experiences "hang-overs" from traditional pain-relief drugs, just like when you take alcohol. And do you know what that does to your body chemistry? It makes you feel...

EVEN WORSE!

Am I making sense?

The problem isn't a lack of medications in your body, it usually is much deeper than that.

True -- there are times when ingesting pills are necessary ... in fact; there are times when it could save your life... BUT IN 90% OF THE CASES, TAKING PILLS ARE TOTALLY UNNECESSARY! IN FACT, THEY EVEN MAKE THINGS WORSE!

Really, really scary.

But true.

Newton said: "For every cause set in motion, there is an equal and opposite REACTION."
WHEN YOU TAKE DRUGS TO GET OUT OF YOUR PAIN, YOUR BODY REACTS
NEGATIVELY TO YOUR "ATTACK ON THE SYSTEM."

In fact, do you know WHY you feel pain? Do you understand why your body shoots off this “pain” signal?

It does it to warn you that,

SOMETHING IS BIG-TIME WRONG!

Imagine it’s like the world’s smartest car alarm in the world. It sounds the alarm whenever a “thief” has messed up your body. And that evil, undetected pain thief may be:

- An old injury...that was never treated properly.
- A “new” injury that exists.. but that you never know you even had!
- A here-to-fore undetected problem with your spine (discussed later...)

Or any of a dozen totally “little” things that make you feel a lot of UNNECESSARY PAIN!

Here’s the point: When you feel the pain signal, it’s your body’s neat little way of saying:

GET ME SOME HELP -- PRONTO!

Is this alarming to you? I haven’t even told you the worse part yet...

But first, tell me if this scene sounds familiar to you:

* * * * *

You look at your watch, 6:30 p.m. Monday. Home at last! What a relief. Monday’s are always so crazy where you work. It seems like the whole darned place would crumble, if you weren’t there. You’re really glad to be home.

Whatever. As you walk in the door you drop your keys and you bend over to pick them up then...

WHAMMO!

Call (760) 777-8377 -NOW- To make An Appointment For Your FREE consultation.

You feel your neck explode! For the second time in 2 weeks.

This time it really hurts. Bad.

With a grimace on your face, and your hand touching your screaming neck, you somehow manage to pick up the keys, and hobble to the living room couch.

Your “bad day” just got worse.

Maybe if you just rest a bit, the pain will go away...

All of a sudden, out of nowhere, your 9-year-old son comes racing down the stairs as fast as he can. He heard you walk through the door. He races through the kitchen, nearly knocks over your spouse in his excitement, and comes leaping into your arms.

No matter how bad you hurt, your son’s hugs ALWAYS help to make the pain go away. At least for the moment. You see the excitement in his eyes.

“Guess what, I had Jimmy’s mother give me a ride home just so I could get my homework done. Remember how you promised me we’d go to the movies tonight?” I even had time to clean my room. Isn’t that great?”

You force a smile (knowing you won’t be able to hold your head up for 2 hours watching that movie) and say, “Yeah, son. That’s great.”

He can see your grimace, though. And he knows what the problem is. He’s seen it all too often before.

The pills the doctor told you to take were supposed to help. Instead, you feel like some drug-addicted “Elvis Presley”, popping more and more painkillers every darn day. And God only knows what

that has *got* to be doing to your body... but what the hell else can you do?
Isn't there a better way? Isn't there a PERMANENT solution to my neck pain?...

Does this story sound painfully familiar to you?
Does this story remind you of anyone? Maybe someone you know? *Maybe you?*
It's so sad. I see it everyday.

That same situation is happening in thousands of households right now... right here in our city.
And right now, maybe even as you read this, another unknowing doctor is prescribing a
"temporary" quick-fix drug to another neck pain sufferer. Not knowing that this will trap him or her into
the vicious "pain-cycle" for as long as they take that drug.

DOES THIS DESCRIBE YOU?

Have you been experiencing neck pain? (Even those seemingly "minor" headaches?) Do you
have recurring neck pain? Do you experience sore muscles, sore limbs, including the neck, shoulders, or
arms? Do you experience migraine headaches -- you know those real "killers"? And are you sick of the
"traditional" establishment trying to shove "magic pills" down your throat -- hoping they will magically
cure your pain?

If so, and you would like a way to reduce and flat-out END your neck pain forever, using proven,
safe, and accepted methods, then let's talk about...

Secrets of a Pain-Free Body!

Let's get down to the nuts and bolts.
Why are you experiencing neck pain... and what can YOU do about it?
The answer is GUARANTEED to shock you, surprise you... even amaze you.

**"I STOP PAIN FAST AND FOREVER USING LITTLE KNOWN SECRETS YOU WON'T
SEE IN A TELEVISION COMMERCIAL. I USE THE MOST RESEARCHED AND ADVANCED
TECHNIQUES AND UTILIZE THE MOST UP- TO-DATE TECHNOLOGY TO FIND AND
CORRECT THE PROBLEM AND KEEP IT FROM RETURNING."**

The best part is that it is 100% natural.
That means your body "accepts" this treatment as natural AND healthy. Not like drugs or surgery.
All of which disrupt the body in some for or another.
The point is: your body accepts this as part of the healing process, so it can finish the easy part on
its own.

And that's where I step in.
See, there is a fact that may shock you about your neck pain. Do you know that, in almost 80% of
the cases that your neck and body pain is being caused in some way, shape or form by:

A BODY THAT IS OUT OF "ALIGNMENT"?

What on earth does that mean?

Well, what happens when the tires on you car are not aligned? Not much at first. But the more
you drive your car, the more destroyed and out-of -alignment your car tires become.

What eventually happens if you ignore this continually? Well... your car experiences a "pain" of
its own. **YOU WRECK YOUR CAR TIRES -- AND HAVE TO REPLACE THEM!**

That's just flat-out inevitable, isn't it?

Your body is just like the car.
Leave your body out of “alignment”, and you “destroy” your metaphoric treads!
Only problem is:

YOU CAN'T REPLACE YOUR BODY!

So what happens if you don't get your body aligned -- ever?

YOU EXPERIENCE PAIN!

Yes! Your body tries to talk to you by shooting off these “warning” signals, that you and I would call “pain.”

Is there a solution? Is there a way to get OUT of this vicious cycle?

Let's talk about what usually does NOT work:

#1: Taking more medication does NOT solve the problem- it only “tricks” your poor body into thinking there's no pain... when there really IS!

#2: Getting surgery RARELY really helps. (And, who wants to be sliced open...drugged into near-coma... and have sharp knives chopping up important body organs... especially when it may be entirely UNNECESSARY! Wouldn't you at least want to try something less invasive first?)

#3: Other short-term “quick fixes” that do NOT work.

OK.

So you've told me what DOESN'T work. What are the answers? What can I do to end my neck pain? IS there a way to get rid of the pain -- long term?

Hey! I thought you'd never ask!

The 7 Secrets To Pain Relief 24 Hours A Day!

I have spent my entire adult life studying methods, little known treatments, and proven ways to stop people's pain.

I have focused my search on those few, rare techniques that heal the problem at the ROOT CAUSE. And, that have been proven without a shadow of a doubt to work. Safely. Quickly. Painlessly. And in the most relaxing and smooth way. No “agitations.”

Here's what this means to you: You significantly lower the pain. Practically the instant I use the technique on you. (Your body literally “talks” to me, sometimes, when I do it! It's like a giant “THANK YOU!” You can usually toss your drugs in the trash. And your body stops sending its searing “pain” warning signal to you day and night.)

Basically, this means:

YOU STOP THE PAIN -- PERMANENTLY!

Yahoo!

ONE WARNING: There are a lot of methods, which are out there. Most have NOT been proven and tested to work, time and time again, consistently.

I have chosen to only focus my care on:

**PAIN- RELIEF TECHNIQUES THAT WORK CONSISTENLY... RELIABLY... AND
VIRTUALLY EVERY TIME!**

I choose NOT to dabble in the latest “fad” treatments. I don’t engage in the current “popular” answers, shown on the Oprah Winfrey show. Instead, I will ONLY use techniques that WORK, and work EVERYTIME THEY ARE USED!

And I’m NOT some quack who doesn’t know what they’re talking about. (It’s silly that I even have to say that, but it’s true.)

I use what I consider to be THE “cutting edge” in treatment and techniques... designed to get you out of pain FOREVER!

(Yahoo! Yahoo!)

So, you can be SURE that I know EXACTLY what I am talking about. (In fact, I spent YEARS focused 24-Hours a day, 6 and 7 days a week focused ENTIRELY on pain elimination methods.

Every technique, method, treatment, and remedy I use has been tested and proven to be safe -- and they WORK -- in thousands of other studies, cases, and I have hundreds of real life “case histories” right in my own patient files to show you anytime you want.

But -- and this should make you OUTRAGED -- even with all this mountain of proof, research, and evidence...

I CAN FLAT-OUT GUARANTEE YOU THAT MOST PEOPLE HAVEN’T EVEN TRIED THESE TREATMENTS THAT WORK.

THAT DRIVES ME NUTS!

In fact, this is one of the reasons you have this report in your hands. I just couldn’t stand it anymore!

Can you believe that this is our current state of affairs?

Luckily, I am here, just minutes away from you! So at least you now have a choice!
Here’s a “quick glance” at what these 7 simple -- yet proven -- secrets are:

Secret #1: Your nervous system controls the function of every cell, tissue, organ, and system of your body. Can you guess what happens if ANYTHING disrupts this all-important nervous system?

Yep. You guessed it:

WHAMMO!

You've got a problem. Sometimes a BIG problem.

So, what does this mean to you -- and why does it apply to you? Simple. Very, very, simple.

The thing that "links" your nervous system together, and makes everything work as a "System", is your SPINAL CORD.

So what?

Well, what if something -- anything -- disrupts this "vital link"? Do you think you'd have some problem? Maybe some pain?

Check this out: The thing that protects this vital link, your spinal cord, is your SPINE!
YOUR SPINE IS LIKE THE BIG, MEAN, TOUGH LOOKING "BODYGUARD" THAT PROTECTS THIS ALL-IMPORTANT BODY PART.

But, sometimes this body guard gets old... or tired... or falls asleep on the job. Or gets the living heck kicked out of him. Or even gets drunk on the job.

Can you guess what happens then?

YOU'RE IN TROUBLE, BUSTER!

Let's talk specifics. (Bear with me for a moment, while I get "technical" on you. It's VERY important that you understand this.)

This "body guard" -- your spinal cord -- has 24 little mini-guardians. Twenty-four bones that makeup your spine, and protect your spinal cord.

Do you know how many moving parts your spine has? Over 24 different, moving, working little bones... and they all have to be 100% "flowing", or you are OUT OF ALIGNMENT.

Many everyday activities -- like just standing up all day long, bending, twisting and lifting -- can cause these little, rather tiny bones to get all out of position. All out of whack. Like the tires that aren't aligned, that eventually destroy themselves.

Do you know what happens when these bones get even a little bit out of place, or move, or just "hang out" differently?

You guessed it:

Call (760) 777-8377 -NOW- To make An Appointment For Your FREE consultation.

DOUBLE WHAMMO! (Ouch!)

They mess up the vital link -- your spinal cord -- and your nervous system "dysfunction". What that REALLY means is, ultimately, you mess up your health.

As simple as the nose-on-your-face.

And I'll bet you the biggest steak in Texas that at least one (but probably more) of these vital bones is out of alignment -- and you never even knew it. And it's causing your body BIG- TIME pain. Or will soon.

(Double ouch!)

SECRET #2: The first step to pain reduction is a thorough examination -- BY SOMEONE WHO KNOWS WHAT TO LOOK FOR!

First thing we do is find out ALL ABOUT YOU. What we call a complete "case history." This is the first step. I want to know what you've been through... and how you spend your days.

This "vital information" will usually give me the secret clues and answers to some of your neck pain.

The next thing is, of course, an examination..

There isn't a lot of cold, painful "probing" with cold metal objects. But I DO have you turn a certain way... or bend... I look carefully at your posture... I check your reflexes and muscle strength... and other little-known but totally "painless" neurological tests. There is also a nutritional and eastern medicine examination too!

What am I looking for?

You guessed it:

A DYSFUNCTIONAL NERVOUS SYSTEM -- AND I CAN FIND OUT INSIDE OF JUST 30 TO 60 MINUTES!

No long, drawn out, expensive studies or tests need to be done. And the whole process is surprisingly affordable, too. Peanuts.

(An important side-note: I will even agree to "buy" 75% of your first exam and consultation with me -- a real \$100 value. See enclosed special certificate. But make sure you call me before the date stamped on the certificate!)

I'll tell you what we find that's going on in your body... and why you've been experiencing neck pain! It's quite amazing. Your body will show me visible signs of why you've been in pain... as reliable as a road map. The BIG, important issue is:

Call (760) 777-8377 -NOW- To make An Appointment For Your FREE consultation.

MAKING SURE YOU USE SOMEONE WHO KNOWS HOW TO READ THIS MAP! (I happen to be one in our city.)

SECRET #3: The secret of "diagnostic imaging."

What the heck is that? Simple.

Once I read your body's "road map", I'll know which road we need to take to get you out of pain.

And, to do that, I sometimes use a little "cheating" device. I may give you an X-ray or other type of test that is almost always painless... but helps me get specific on where and what is causing your neck pain.

Make sense so far? Good. Because the next step is ...

SECRET #4: Once I find the “problem... now we attack it like a panther hunting down is prey!

Once we find out what’s wrong, now we can solve it. Often times permanently.

Once I find out where your “guards” have let you down... or slept on the job... we kick them into shape!

Don’t worry -- I don’t make you run 83 miles a day, do Richard Simmon’s exercise videos, or anything like that.

In fact, I do most of the work FOR you!

And that leads us right into our next secret...

SECRET #5: The power of the “ADJUSTMENT!”

Remember we talked about ALIGNMENT? Remember how we said that if you’re not properly aligned, your body acts just like the car tires that wear down?

Well, the “secret weapon” I use -- that gets AWESOME results -- is called an “adjustment.”

And, it is just like what it sounds like. My first line of attack -- and what works with such awesome curative, healing, and pain eliminating furor that it scares even ME -- is a chiropractic adjustment.

This little-known, (and virtually ignored) treatment flat-out WORKS better than anything else I’ve ever studied. And I’ve seen it’s “magic” work on hundreds, if not thousands, of people who were in pain. (Just like you.)

In fact:

IF MORE PEOPLE UNDERSTOOD OR KNOW ABOUT THIS AWESOME “TOOL” -- WE’D PUT TYLENOL, BAYER, AND EVERY OTHER ASPIRIN COMPANY IN AMERICA OUT OF BUSINESS FOR GOOD!

So, let’s get back to our discussion.

I help return your beat up, battered, (and “sleepy”) spine into a honed, lean and mean, powerful fighting machine! (Using 100% “natural” methods. No crazy pills or painful probing)

I use techniques -- all PROVEN to work without a shadow of a doubt -- that help return your little spinal bones back to where they belong. And, the most amazing part is:

Call (760) 777-8377 -NOW- To make An Appointment For Your FREE consultation.

THIS WHOLE PROCESS DOESN’T HURT ONE BIT!

See, there are hundreds of ways of using super carefully directed... controlled.. and focused “pressure” to restore position to these “stuck” joints.

The amazing part is, the pressure that I use feels like a deep muscle massage... only it does a lot

more than relax your muscles! It actually “realigns” your entire spine!

Sometimes while I’m doing my “magic”, your body will actually talk to me, like a cooing baby. We may hear a “pop”, that is your body saying :

I’M BACK... I’M FEELING GOOD AGAIN... AND I’M READY TO KICK BUTT!

SECRET #6: Acupuncture and Nutrition!

Most Chiropractors just try to adjust everything. However at N2Health we incorporate physical therapy, acupuncture and nutrition to get the

BEST RESULTS!!

This will get you feeling better quicker than with just chiropractic adjustments. Most people are raving about this UNIQUE combination of EAST meets WEST type of care. Better yet, this is all under one roof at a discounted combo rate.

SECRET # 7: Consistency is the key!

The seventh “secret” is consistency.

Do you know that most people I know get their cars oil changed every three months? I mean, they wouldn’t DARE let it go more than one full “season” without changing it.

What happens if you NEVER change your car’s oil?

YOUR ENGINE GOES TO HECK IN A HANDBASKET!

Well, if you’ll spend just about the same (or even less) than the price of an oil change to come in, and get your spine “checked up”, your BODY’S engine will remain a lean, mean, full-throttle, turbo-charged MACHINE! No, you don’t have to do a lot of “work.”

Just be CONSISTENT. Do that, AND YOU’LL NEVER HAVE TO TAKE HARMFUL AND OFTEN UNNECESSARY DRUGS EVER AGAIN!

(This is one “secret” that not one in a thousand people even understand. Now you know it. And it’s so bloody EASY to apply! But this is THE secret to getting rid of your neck pain once and for all. Sound like a lot of work? NO WAY! We make this entire process totally INEXPENSIVE... and a complete “no brainer” for you! In fact, it’s so easy, that it’ll make you smile. In my office, when you come in, we actually make sure we remind you and help you every step of the way! My patients LOVE us for this! You will too!

If, however, you try to short cut, or look for the “quick-fix,” the same vicious cycle will kick in over... and over... and over again.

Remember this secret of CONSISTENCY: It works!

Call (760) 777-8377 -NOW- To make An Appointment For Your FREE consultation.

And the last thing...

TAKE ACTION NOW THAT YOU KNOW WHAT TO DO:

What separates the people who get pain-free, from those poor and unlucky souls who spend their whole lives needlessly suffering with neck pain, is:

TAKING ACTION!

And in a minute, I'll tell you exactly how you can take action... and why I'm going to actually buy 75% of your first exam with me! (But that's in a minute.)

Before we talk about that, I'd first like to tell you about my rather unique, quite generous:

NO-RISK, NO-HASSLE, 100% MONEY BACK GUARANTEE

I know there will be one or two very skeptical people out there who are reading this. They're looking for any reason or excuse they can come up with NOT to come see me.

THEY ARE SCARED.

So, to get rid of any myths, misconceptions, or skepticism, I've decided to offer you the most generous form of "insurance" I can.

And here it is. **My SUPER-FAIR, SUPER GENEROUS 100% GUARANTEE PROMISE TO YOU:**

If you are ever unhappy, for any reason whatsoever with the level of care...service.. kindness... ANYTHING, I will give you all your money back -- no hassles, no jumping through hoops, no questions asked either.

I DON'T KNOW OF A DOCTOR ON THE PLANET WHO OFFERS SUCH A STRONG GUARANTEE AS THAT ONE!

It should be the ULTIMATE confidence builder. (Other doctor's say to me: "Are you crazy? Won't people take advantage of you?" While it's true some could, I have the utmost faith and trust in my patients. They'll tell me whether or not I'm doing a great job. So, no I am NOT crazy - I'm just very confident in the level of my care, and I have confidence in my patients, too.)

ALSO: My state law forbids that ANY doctor make guarantees on results. Any attorney, too. (Now THAT I can understand!) Whatever. So, I CANNOT (and WOULD NEVER) guarantee a magical "cure" of all your problems. It would be impossible for me, or ANY doctor for that matter, to do that. (Unless they've mastered the skill of Superman strength X-ray vision and mind-reading.) So I won't and can't promise you a cure.

But one thing I sure-as -heck DO guarantee is your complete satisfaction... your utter happiness in the level of care.. and your unequivocal feeling of value in what I've done for you.

I Dare Other Doctors To Match My Guarantee, But, So Far, There Are No Takers.

Of course, if most doctor's guaranteed their service like this, they'd be broke in a New York Minute. But I want to leave you no excuse for not getting rid of your neck pain once and for all! I want to help you -- and if it means putting my financial backside at risk, then hey, I'm willing to do it. Because, believe it or not, I care about you!

YOU RISK NOTHING.

Now, what's the next step you should take?

Well, I have decided to make it super-easy for you to take action. In fact, I've made it so easy for you, that you're crazy if you don't take me up my offer!

Here's how you can come in to see me *pronto!*:

I'VE ARRANGED FOR YOU TO GET A TOTALLY "FREE", NO-HOLDS-BARRED, ASK-ME-ANYTHING, Neck Pain Severity Evaluation and PAIN-REDUCTION CONSULTATION WITH ME, PERSONALLY.

I run a successful practice, and I am quite busy. I really want to help you, but unfortunately when my schedule is full... well, that's it!

(In fact, I've gotten so many call about this report already, that I don't know how much longer I will be keeping this offer open.)

Here's the point:

You must call me as soon as possible, preferably right now, to ensure that you can get in to see me -- and get your totally free, consultation with \$25 exam.

It's really easy to call and schedule your appointment. Just call me at:

760-777-8377

Tell them you're taking advantage of my special "certificate" program, and they'll take care of everything for you.

Call (760) 777-8377 -NOW- To make An Appointment For Your FREE consultation.

A FIVE YEAR OLD ON A MASSIVE SUGAR "HIGH"!

Won't that be great?

YOU CANNOT "LOSE" ON THIS DEAL IN ANY WAY, SHAPE, OR FORM.

The only thing you have to fear to "lose" is:

YOUR NECK PAIN!

Still, there are some people who will stubbornly refuse to come in for their Free Neck Pain Severity Consultation, no matter how easy I make it for you to get rid of your neck pain.

I know that some small percentage of you reading this will refuse to come in. Although that's okay with me from a scheduling point of view (I'm quite busy), it still bothers me personally.

See, I know how much my patients who come in benefit from my care. I've seen their faces when they walk out feeling better than ever before. And I have seen hundreds, if not thousands of people, and

treated their neck pain in some way, shape, or form. I know that what I do works.

Because of this, I can't stand the thought of someone not coming in for their **FREE Neck Pain Severity Consultation** because of some error or omission in my explanation here.

That's why I held a special "brainstorming" session with my staff last week, just to try and figure out why you might say "no" to my free Neck Pain Severity consultation offer.

After several hours, our group could think of only three possible reasons. Here they are:

REASON #1: - It costs too much, OR: my insurance won't cover it.

ARE YOU SURE ABOUT THAT? We take most forms of coverage. But even if we don't, we are surprisingly affordable. Our insurance specialist will verify your insurance for you on the spot. AND REMEMBER: YOUR FIRST VISIT IS ONLY \$25 WITH AN EXAMINATION! ALMOST NO COST WHATSOEVER.

Unlike surgeons, who sometimes charge thousands of dollars an hour for their time, I make SURE each and every patient can afford my care. I feel it's my obligation to you.

The only way you'll know whether or not you can afford me, is to come in, and let's find out how much care you need. It may be a LOT less expensive than you'd ever imagined. A LOT less.

Now, I realize there are a select few who are just plain CHEAP. If you are the kind of person who takes extra Sweet-N-Low packets home in your pockets from the restaurant, this may just be a lost cause.

But, cost really ain't the point -- WORTH is. So, I've got a question for you!

HOW MUCH DO YOU REALLY VALUE YOUR HEALTH?

Seriously. Think about it.

If you value your health as much as I KNOW you do (if you didn't you won't have read this far), then the price of my super-care is, by comparison, peanuts. Chump change.

DON'T JUMP OVER DOLLAR BILLS TO CHASE PENNIES.

See, the extra productivity being free of neck pain can create in your life is quite awesome. Maybe you'll finally:

- * start that business you've always wanted to start... but just never felt "well-enough" to go for it.
- * kick-butt at your place of work (and quit MISSING work because of your neck pain!)...heck, you might even finally get that raise you deserve.
- * or just bowl like you used to... finally join that softball team all your buddies are on... take up tennis... or finally just shoot par!
- * walk, shop, exercise, play with your kids, work in your garden...whatever!

You get the picture.

Just think about it.

REASON #2 - I'm scared. I've never been to a doctor of chiropractic or acupuncturist before.

I would be scared too, if I didn't quite know what to expect. But I think you will find two things when you come to my office:

- #1: I am a VERY good listener... and I won't let you be "scared" any step of the way. And,
- #2: I explain EVERYTHING in exact detail, so you understand what's going on at all times.

The next reason...

REASON #3 - I'm afraid it will hurt.

I don't blame you for feeling this way. Many others have felt the same way as you. But keep in mind that my approach is 100% "natural." And that means I DO NOT use:

- * drugs...
- * big, mean looking needles...
- * or surgery.

Most everything I do feels like a deep massage, or like an athletic stretch. Some of what I do is quite relaxing. Other things I do feel a bit different. In fact the acupuncture needles are about as thin as each one of your hairs and will usually feel like a mosquito bite, and many people don't even notice them entering the very tip of their skin.

There's almost nothing I do that causes pain.

And the final reason you might not respond...

REASON #4 - You think all this is for "other people" - people in more pain than you, or really "desperate" people.

I see surprisingly wide variety of "pains". See if any of the following apply to you:

- Hip pain
- Headache
- Dizziness
- Painful joints
- Back Pain
- Pain or numbness in arms or hands
- Arthritis
- Fatigue
- Upper, middle, or lower back pain
- Any/every type body "pain"

Do you experience any of these symptoms -- even occasionally? If so, you can and should consider coming in for your Free Neck Pain Severity Evaluation. What have you got to lose?

Ignorance is NOT bliss. Ignorance means you continue to experience neck pain needlessly. And that's a "sin."

Even if you suffer the occasional headache, or migraine, if help is available, why not take it?

And even if "suffer" is too strong of a word to describe your situation, even if you experience NO pain right now -- it still makes sense to make sure you are properly "aligned."

Why wait for "treads" to be destroyed?

Okay, let's wrap this up.

Whew! You and I have been through a lot here, haven't we?

I hope you've learned a lot about how you can get rid of -- and STAY out of -- neck pain. And I hope you take advantage of this limited time FREE Neck Pain Severity Consultation!

I am very happy with the care I receive from the doctor.

“I had been suffering from lower back pain, neck pain and pain in my right arm for at least 15 years. This pain affected my work performance, as well as, my daily life. I felt pain when walking or bending to pick something up. I took pain pills, had seen other chiropractors, and used a heating pad to relieve the pain. About two months ago, my sister began seeing Dr. Hashimoto and recommended that I do the same. After receiving chiropractic care from Dr. Hashimoto, I still have some back pain, but not nearly as bad. I can now walk without as much pain in my lower back. I will continue to visit Dr. Hashimoto because I want to feel better and I'm tired of being in pain. I am very happy with the care I receive from the doctor, the staff and I like using the water table.”

Now, I am able to work and sleep without pain.

“I came in to see Dr. Hashimoto because I had neck, back and knee pain for many years. I was unable to run or stand for a long period of time because of the pain. Before seeking treatment from Dr. Hashimoto, I took neck treatment pills with no results. Once I started care, I started feeling better right away. Now, I am able to work and sleep without pain. I will continue chiropractic care because it helps and the doctor cares about me.”

He has done what he said he'd do. He made the pain go away and stay away!

“After being involved in a recent car accident, I suffered from lower back pain, neck pain and shoulder pain for over two months. Because of the pain, I was unable to enjoy fishing, weight lifting, restoring cars, and most other everyday activities. I tried physical therapy, pain pills, and

muscle relaxers these results of these treatments were non-conclusive. A friend recommended chiropractic care, once I began Dr. Hashimoto's care, I started feeling better in 1 month. Now I'm able to do nearly everything I used to be able to do. I will continue to visit Dr. Hashimoto for care to try to eliminate all the pain and return to normal. Dr. Hashimoto provides outstanding care and is friendly and understanding. He has done what he said he'd do. He made the pain go away and stay away!"
